WHAT DOES 100% WATERPROOF MEAN?

When exposed to water *Vivero* and *Luxe Plank* tiles/planks are waterproof and will not swell, buckle or lose integrity. If exposure to water occurs, all *Vivero* and *Luxe Plank* flooring installation systems (IntegriLock™ System, Lynx® Technology, Fastak™ installation, full-spread adhesive and locking) will continue to create a secure bond. In the case of standing water or flooding, *Vivero* and *Luxe Plank* flooring will not act as a waterproofing barrier for the subfloor and/or any surrounding structure. Any damage to the subfloor and/or surrounding structure that is caused by standing water or flooding is not covered by this warranty.

WHAT IS THE ARMSTRONG PET-FRIENDLY WARRANTY?

When exposed to soiling from pets (domestic dogs and cats), *Vivero* luxury flooring will resist stains during the specific warranty timeframe. However, accidents should be cleaned up immediately, as the longer they sit, the more difficult they will be to remove. Any damage to the subfloor and/or surrounding structure caused by pets is not covered by this warranty.

WHAT IS NOT COVERED BY THIS LIMITED WARRANTY?

- Damage caused by fire, flooding, exposure to standing water or intentional abuse.
- Damage caused by moisture to surrounding structure, walls, subfloor, fixtures, furniture, underlayment, moldings, trims, subfloor heating elements, or anything that is not the structural integrity or dimensional stability of the floor plank or tile.

- Damage resulting from mold and mildew growth due to prolonged exposure to moisture. While moisture will not affect the structure of the plank or tile, when excessive moisture accumulates (and in particular remains undiscovered or unaddressed) mold and/or mildew growth can occur.
- Flooring that is installed outdoors.
- Damage caused by vacuum cleaner beater bar, rolling caster wheels, and cutting from sharp objects.
 - When vacuuming, we recommend using the wand attachment on your vacuum.
- Indentation or damage from improper loading including high heels, spiked shoes, rolling loads, chairs or other furniture not using floor protectors
- Damage caused by abuse such as moving appliances across the floor without adequate protection. When moving appliances or heavy furniture, lay a plywood panel on your floor and “walk” the item across it. This protects your floor from scuffing and tears.
- Loss of gloss/scratching.
- Minor color, shade or texture variations between samples or printed color photography and the actual material.
- Floors that are graded “irregular” or sold “as is” without warranty.
- Floors that are installed in structures other than owner-occupied or tenant-occupied residences. (Except products that are noted as warranted commercial or limited commercial.)
- Discoloration from moisture or underlayment panels after having been repaired or replaced by Armstrong one time.
- Construction or installation-related damage - including installation defects due to installations not using the recommended Armstrong products.
- Failure of the floor to adhere to the subfloor due to, for example, moisture, alkaline or hydrostatic pressure from the subfloor.
- Inappropriate end-user activities.

CARE INSTRUCTIONS

To keep the lasting shine and fresh feel of your investment for as long as possible, we recommend that you:

Do

- Wipe up spills as soon as possible. Never use highly abrasive scrubbing tools on any resilient floor.
- Wash occasionally with Armstrong® Once 'n Done® Resilient Floor Cleaner.

Don't

- Use detergents, abrasive cleaners or "mop and shine" products – they may leave a dull film on your floor.
- Use paste wax or solvent-based polishes.
- Use rolling casters as they can damage the floor.
- Use a beater bar when vacuuming because it can visibly damage the floor surface.
- Use highly abrasive scrubbing tools.

Proactive protection for your floor

- When moving appliances or heavy furniture, lay a plywood panel on your floor and "walk" the item across it. This protects your floor from scuffing and tears.
- Use floor protectors on furniture to reduce indentation. As a general rule, the heavier the item, the wider the floor protector needed.
- Place a walk-off mat at outside entrances to reduce the amount of dirt brought into your home. We do not recommend the use of rubber- or latex-backed mats (except where noted) because the chemical (antioxidant) they often contain can permanently stain your floor. We suggest a non-staining vinyl-backed mat or a woven rug that is colorfast.
- All Armstrong® floor care products have been specifically developed to care for Armstrong® floors.

Immediately after installation

- Maintain a minimum room temperature between 65 and 85 degrees Fahrenheit for 48 hours before, during and after installation is completed, then maintain temperatures between 55°F (13°C) and 85°F (29°C) thereafter.
- We recommend that you do not scrub or wash your floor for five days.
